

## Offshore® Compasses

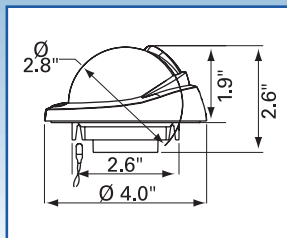

### Offshore Compass Features

- Precise, 5° graduations and heading numerals every 30°
- Card clearance allows 35° turns without affecting compass accuracy
- One high-visibility lubberline
- Exclusive Vibration Absorber system for exceptional card stability
- Vitor® diaphragm with extreme expansion and retraction capacity compensates for fluctuations in fluid volume caused by temperature and pressure preventing the formation of bubbles
- One-piece molded flange and bowl is waterproof
- All parts are fully treated for UV-resistance
- Scratch-resistant dome
- 12/24V DC lighting (12V only Offshore 75)
- Articulated protective hood slides fully open, partially open and closed with audible click-stops (Offshore 105 and 135)
- Includes compensation cell (optional on Offshore 75)
- Mounts horizontally or vertically on any surface regardless of angle
